RUKSHANA H

SAP SD / S/4HANA Sales Functional Consultant | Generative AI & Business Automation

Chennai, India | +91-9790130217 | linkedin.com/in/rukshana-h-24410b47

PROFESSIONAL SUMMARY

SAP SD functional professional with approximately 4 years of overall professional experience at Wipro Technologies, including a documented SAP SD support engagement for Cardinal Health from December 2012 to October 2014. Experience includes SAP ECC 6.0 Order-to-Cash processes, sales orders, delivery, billing, pricing concepts, IDoc monitoring and error handling, functional specifications, testing, ticket resolution, and coordination with MM/FI and technical teams. Currently refreshing SAP S/4HANA Sales knowledge while building practical Generative AI, chatbot/agent and workflow-automation capability through hands-on projects and Google Cloud Gen AI Academy learning. Python is at beginner-learning level.

CORE SKILLS

SAP / Enterprise

• Order-to-Cash: sales order processing, delivery, shipping/PGI, billing, returns, cash sales, rush orders, credit/debit memo requests, third-party/drop-ship sales.

• Pricing and sales configuration concepts: sales document types, item categories, schedule line categories, delivery/billing types, pricing procedures, condition tables, access sequences, condition types and records.

• IDoc/output support: monitoring, analyzing and correcting error IDocs; workflow-inbox issues; failed delivery/billing outputs; reprocessing and resending.

• Functional support: requirements gathering, root-cause analysis, incident/ticket resolution, user communication, functional specifications, defect validation and end-to-end/system-integration testing.

• Cross-functional coordination with MM, FI and technical/system-integration teams; tools: SAP R/3 ECC 6.0, ServiceNow, Radar, Espresso, MS Office.

AI / Automation

• Generative AI prompting and business-use-case design; Gemini and Google AI Studio.

• AI chatbot/agent concepts, RAG/grounding, Google ADK concepts, MCP/BigQuery concepts and human-in-the-loop patterns.

• Google Cloud exposure: Cloud Run, Firebase/Firestore, IAM/service-account concepts and guided deployment workflows.

• Conversational tools and automation: Landbot, n8n, Pabbly Connect.

• Streamlit guided application development; practical testing, fallback handling and workflow documentation.

• Python — beginner learning level; APIs/LLM concepts, vector databases and deployment concepts.

PROFESSIONAL EXPERIENCE

WIPRO LIMITED / WIPRO TECHNOLOGIES, India | 28 May 2012 – 01 Apr 2016

Overall employment: approximately 4 years

Project Engineer / SAP SD Functional Consultant / Associate Consultant

Cardinal Health — SAP SD Support Project | Bangalore | 03 Dec 2012 – 10 Oct 2014

- Understood client business processes and requirements through discussions and direct communication with users while handling critical issues.
- Provided timely solutions for SAP SD support tickets; analyzed issues, identified root causes and communicated with users on priority/critical issues.
- Created and processed sales orders, deliveries and billing documents and supported the end-to-end sales cycle.
- Worked with sales document concepts including sales document types, item categories, schedule line categories, delivery types and billing types.
- Worked with pricing procedure concepts including condition tables, access sequences, condition types and condition records.
- Supported cash sales, rush orders, returns, credit memo requests, debit memo requests and third-party/drop-ship sales.
- Monitored, analyzed and fixed error IDocs received in the workflow inbox; supported failed delivery and billing outputs and reprocessing/resending.
- Prepared functional specifications for technical consultants and supported end-to-end functional testing.
- Worked with MM, FI and System Integration teams for cross-functional issue resolution, testing and defect closure.

Initial Wipro period — SAP/company training | 28 May 2012 – 02 Dec 2012 (approximate transition to project)

Completed initial training before moving into the Cardinal Health SAP SD support project. No separate project responsibilities are attributed to this training period.

RUKSHANA H

SAP SD / S/4HANA Sales Functional Consultant | Generative AI & Business Automation

CURRENT SAP REFRESH & AI / AUTOMATION LEARNING — 2026

- Refreshing SAP SD knowledge toward SAP S/4HANA Sales, with emphasis on OTC, pricing, delivery/billing, IDoc/interface support and modern sales-process terminology.
- Building practical Generative AI capability through Google Cloud / Gen AI Academy learning, chatbot and agent projects, prompt-driven application design and cloud deployment exercises.
- Python remains at beginner-learning level; learning APIs, LLM concepts, RAG, vector databases and deployment concepts through guided practice.

SELECTED AI / GENAI PROJECTS

AI Barista / Grounded AI Agent — Google Cloud Gen AI Academy

Guided hands-on project using trusted menu data, RAG/grounding concepts, Google ADK concepts, Gemini, Streamlit and Cloud Run; tested grounded recommendations and allergen-safe responses.

BigQuery / MCP Agent — Google Cloud Gen AI Academy

Hands-on learning project focused on agent workflows, MCP/data-access concepts, BigQuery-oriented retrieval and human-in-the-loop patterns.

GenAI Learning Journal — Google Cloud Gen AI Academy / Ideathon

Built and submitted an AI-powered learning companion using Firebase Authentication, user-isolated Cloud Firestore, Gemini multi-turn guidance and Google Cloud Run, including a “Summarise My Learning + Next Action” feature.

CymbalMart Party Planner Shopping Agent — Google AI Studio

Built and tested a prompt-generated party-planning application with natural-language refinements, budget guardrails, retry/fallback handling and simulated checkout safety.

Specialty Motors AI Sales Assistant — Landbot

Built a conversational assistant for used-car discovery, FAQs, comparisons and lead qualification.

Boutique Lead-Generation Chatbot — Landbot

Built a guided chatbot for product discovery, FAQs and collection of potential-customer details for follow-up.

Workflow Automation — n8n / Pabbly Connect

Built trigger/schedule-based workflow automations and practical business-process workflows.

CERTIFICATIONS & PROFESSIONAL LEARNING

Google Cloud Gen AI Academy APAC 2026 — Cohort 3

Certificate of Completion | Issued by Google Cloud / Hack2Skill | 21 September 2026

Focus: Generative AI, Cloud Run, building and deploying intelligent agents, and Google Cloud.

Google Cloud Gen AI Academy APAC 2026 — Cohort 3 Ideathon

Certificate of Participation | Issued by Google Cloud / Hack2Skill | 02 November 2026

Recognition for participation in the Cohort 3 Ideathon and applying skills in building, deploying and orchestrating AI agents with Cloud Run.

Additional professional learning

- AI Tools & Claude Workshop — Be10X — 2026
- MS Office Using AI Workshop — 2026

EDUCATION

B.E. — Computer Science and Engineering | K.S. Rangasamy College of Technology, Tiruchengode | May 2012 | CGPA 8.20

TARGET ROLES

SAP SD / S/4HANA Sales Support Consultant | Order-to-Cash Functional Analyst | SAP IDoc / Interface Support | Functional Testing / UAT | SAP Functional Support | Junior Generative AI / Chatbot / AI Automation roles
